

REMARKS/ARGUMENTS

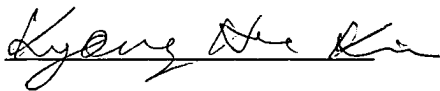

It is respectfully submitted that the new detailed description of the invention distinguish over the prior art, since it is clear that some portion is eliminated and corrected and some portion is added.

In view of these considerations, it is respectfully submitted that the old detailed description of the invention should be considered as no longer acceptable with respect to the corrected and added and eliminated detailed description of the invention. The new detailed description of the invention should be considered as clearly distinguishing over the art and should be allowed.

AMENDMENT TO THE CONCLUSION, RAMIFICATIONS, AND SCOPE:

This listing of the conclusion, ramification, and scope will be a little corrected and partially eliminated.

Altogether 30 sheets of paper, 7 sheets of drawing

CONCLUSION, RAMIFICATIONS, AND SCOPE:

Wheel cylinder change occasion or wheel cylinder piston cup change or vapor lock occur or caliper change and caliper flexible leaking hose change occasion, like these occasion we have to do air bleeding work form the air bleeding nipple.

So the air bleeding nipple is frequently stuck up occasion or vapor lock occur, we have to get trouble time occasion or the working room for moving hand for the air bleeding work is very small or cannot reach easily, so like these trouble occasion, in order to save efforts and time, we use half auto air bleeding cylinder.

This invention makes air bleeding work more easy way, so save efforts and not too long time.

In case of jumbo air plane, can save two hours and six persons, efforts and working.

With wheel the helicopter is trying to do the air bleeding work, save a lot of trouble, and not too long time and work.
